Go discover the capital of the Baroque and enjoy the delicacies of Sicilian cuisine comfortably seated in an open sky "living room": you can do it! You just need to choose this incredible tour for Noto and Tuna fishing village.

The tour begins with the discovery of Noto, one of the UNESCO World Heritage Sites with other places of the Val di Noto, and then you will discover the amazing beauty of a small fishing village with its square located at few steps from the sea.

Noto is full of numerous historic buildings of great artistic importance: palaces, churches, terraces, staircases. All of them were built using the local variety of stone, characterized by a golden hue with pinkish shades. The whole city looks like it is a unique architectural complex.

The tour through Baroque starts from Porta Reale, that is the real city gate and continues admiring the most impressive and rich churches (Saint Francis of Assisi's, Saint Clare's and, obviously, the Cathedral of Saint Nicolò), the town hall Palazzo Ducezio and

the most famous street of the city: Nicolaci Street.

Every Spring, Nicolaci Street host the Infiorata Flower Festival, an event internationally awaited. In those days Noto is full of tourists from all over the world.

A few kilometers away, directly overlooking the sea, a fishermen village awaits you. It is a succession of alleys tinted by the colored windows, an uninterrupted photograph of images to be worn in the eyes and in the heart. Arrived at the heart of the village, you will admire the square in front of the palace of the Prince of Villadorata: built in 1752 in sandstone.

The scent of the sea and that of the kitchens of the characteristic restaurants that animate the square will inebriate you and, like in an open-air living room, you will be able to fully enjoy the unique taste of the Sicilian culinary tradition.
