## Day 2 (Friday & Monday)

### Taormina at leisure

Breakfast at hotel.

Today is at Leisure to explore the town on your own.

*Taormina has long since been Sicily's most favourite resort town, perched on a coastal bluff that looks out to the Tyrrhenian Sea between Messina and Catania in the north east of the island. Its ancient narrow streets are full of little specialist shops, cafes and restaurants, which are an invitation to step into the spell cast by this intriguing town. The town's history is vibrant and complicated and dates back to the Ancient Greek period. Taormina was settled in 395 BC by residents from the nearby city of Giardini- Naxos, Sicily's oldest Greek established city dating back to 735 BC. Giardini Naxos was where the Greeks established their colony during their domination of Sicily.*

Agrigento, according to legend, was founded by Daedalus and his son Icarus after they had fled from Crete "by air". Historically, however, its origins date back to 582 B.C. when it was founded by Rhodian-Cretan colonist from the neighboring Gela who named their city Akragas after the nearby river. It rapidly increased in size, importance and military strength under Phalarides, the first tyrant, and later under Theron, who extended his way over northern Sicily as far as Himera.

This afternoon we then continue onto **Piazza Armerina** to enjoy an independent visit of the amazing **Mosaics Floor at the Roman Villa of Casale**, that belongs to the Unesco Heritage. Built on the 4th century AD, the Villa was later forgotten and only in the 20th century excavations revealed the whole building. It is the supreme example of a luxury Roman villa (about 3500 square meters of floor mosaics) and was probably the residence of a member of the upper class of the Roman Empire. The mosaics discovered here are celebrated among scholars of antiquity. The visit inside the Roman Villa will be done independently. Every room has information boards.

### RAGUSA & NOTO WITH CHOCOLATE TASTINGS | Semi Private up to 7 people

Breakfast at hotel.

Today H 8.30am departure from **Siracusa** in direction of **Ragusa Ibla**. Our Team will offer you time at disposal to keep the feeling with this section of the town giving you direction to explore independently the old part of the city and an undisputed reality of Baroque art. Here you can admire numerous eighteenth-century churches and buildings and the Gardens.

Soon after, you will discover another jewel of the **Sicilian Gastronomy: the local Chocolate** in Modica. This particular chocolate is made with a very old recipe, the one coming from the **Aztecs**. If you are wondering what the Aztecs have to do with Sicily, think about the Spanish conquistadors in South America and you will see that the same Spanish have dominated this island for a couple of centuries.

We then continue to **Noto**. In the Arab period the town was the capital of one of the three districts of Sicily (the Val di Noto) and once defeated by the Christians, Noto became a rich Norman city. Unfortunately, it was totally destroyed by the 1693 Sicilian earthquake and rebuilt in a new position nearer to the Ionian Sea. But the new Noto is a masterpiece of Sicilian Baroque! Most of the buildings, including churches and noble palaces, follow one another along the main street and are characterized by the honey tonality of tufa stone.

Later we return to **Siracusa** (*estimated arrival time h 4PM ish depending on the traffic situation*)
